Planning for the payment of fees

We appreciate families make a significant financial commitment in choosing independent education so offer several options to make fee payments more manageable.

**Option One:
Termly invoice**

School fees invoiced three times per year, before the start of each term; August, December and April. School fees and bus charges are payable termly in advance; extras such as music lessons are payable termly in arrears.

**Option Two:
Direct Debit**

Direct Debit with a choice of two payment arrangements - three instalments to be claimed the day before the first day of each term (September, January and April) or ten monthly instalments claimed on or about the 10th day of each month from September to June inclusive where agreed in advance. There is no surcharge for the ten monthly payment option (subject to approval by the Bursar).

**Option Three:
Lump sum**

A lump sum payment to cover part or all of estimated future fees. The fees in advance scheme is designed to provide you with certainty regarding the cost of future school fees, and carries a discount. Once paid, the cost to you remains the same regardless of what happens to the level of school fees in the future. Minimum one year payment applies (further details can be obtained from the Bursar).

Financial Assistance

33% of all pupils in ISC schools receive help with their fees, whether that be directly from the school or from other sources.

It is always worth investigating whether support with paying fees could be available for you. Whether it is a relatively small sibling discount or a large means-tested reduction, it could make all the difference.

Fee discounts provided from external sources

There are a number of educational and charitable trusts that provide assistance with tuition fees. A detailed list, including links to specific websites, is available online at: www.educational-grants.org. These include, amongst others:

Buttle UK - help with fees for children and young people who have a boarding need.

Royal Medical Foundation - assist GMC registered doctors and their families who have a proven financial need.

Royal National Children's Springboard Foundation - considers applications for children with one or no parents, and whose home circumstances are seriously prejudicial to the child's normal development.

The School Fees Charitable Trust - assist parents who, having selected private education with reasonable expectations of being able to meet the costs, are unable to pay as a result of hardship, arising from an unforeseen change of circumstances. (Support available at GCSE & A Level)

The Risley Educational Trust - grants are available for people under the age of 24 who live in the parishes of Breaston, Church Wilne, and Dale Abbey and are in need. The foundation may give grants to help with further education, buying books or equipment, paying for educational travel, help in study of music and other arts and promoting social and physical training.

Bursary

The bursary scheme takes the form of a means-tested financial discount.
